

SOFT4Wholesale – Inventory Finance solution

SOFT4Wholesale for inventory finance is an additional module to SOFT4Leasing to support stock financing for dealers. The module SOFT4Wholesale can be used a stand-alone solution, too.

SOFT4Wholesale enables management of dealer network and supply chain, sales promotion of a particular brand, and business growth within the channel.

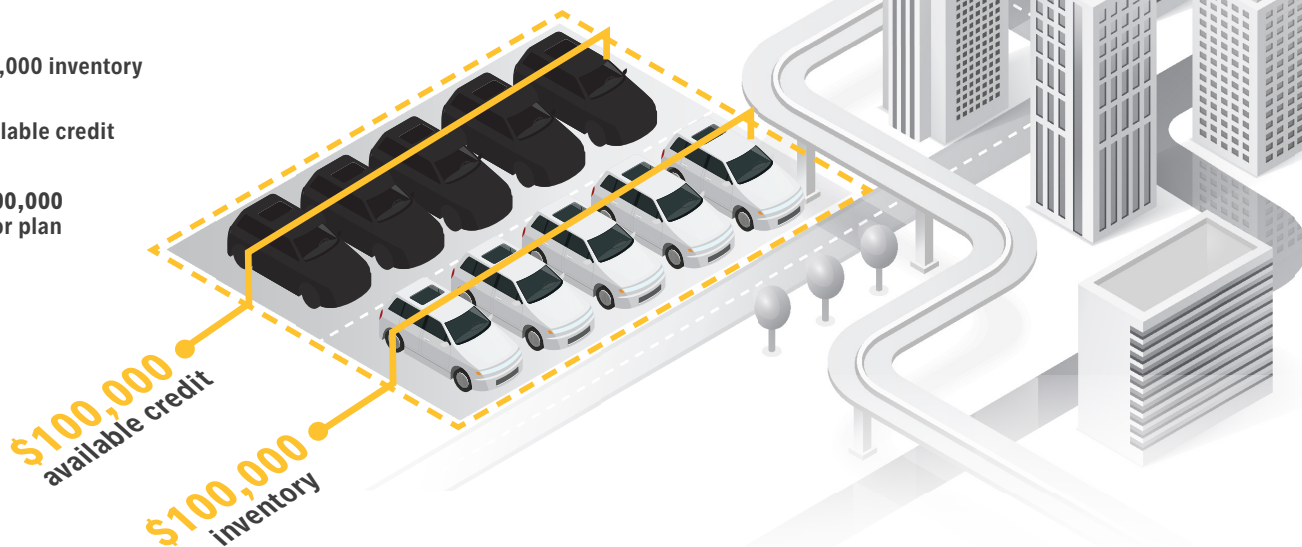

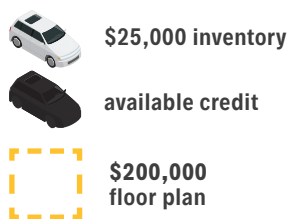

SOFT4Wholesale inventory finance and administration solution is flexible to be developed and adapted to the customer's business model and needs.

PROCESS

- Define inventory financing products.
- Manage dealer assessment and credit limit.
- Support three-party process Distributor – Funder – Dealer.
- Interface to the Distributor/Supplier system.
- Process purchase orders and supplier invoices.
- Manage Distributor/Supplier payables.
- Manage Dealer receivables.
- Support Manufacturer subsidies (subventions), aka “Free-floor-plan periods”.
- Calculate and bill interest to Dealer and/or Distributor/Supplier.
- Settlement on asset sale (when financed asset goes off stock).
- Detect Due-in-Full events (e.g. “Retail Contra”, Warranty registration).
- Enjoy Dealer Stock audit functions.
- Manage curtailment agreements.
- Manage early-settlement rebate and other incentives to the dealer to move the asset.
- Transfer stock (from dealer to dealer).
- Periodically review dealer's credit limit.

FEATURES

- Management of the full lifecycle of wholesale finance activities, from dealer assessment to Trust Receipt settlement and termination.
- Configurable workflows that wrap around your existing business processes.
- Flexible credit limits to accommodate seasonal needs, market fluctuations, and important aspects that may affect business.
- Interest free period options.
- Reports to give the insights needed to manage your inventory and floor plan funding.

The right mix of available inventory is one of the most important success factors of any dealership – finance your new car inventory and secure your growth with **SOFT4Wholesale!**
